

Please do not weaken or interfere with the NJ Do Not Call Law. My right to privacy should supercede any vendor's desire to sell me something. They can send me a letter. They should not have the right to call me at my home and invade my privacy at any time they choose. Our homes should be our sanctuaries. Just as you cannot enter my home without my consent you should not be able to invade it via the telephone without my consent or against my expressed wishes.
